- National plan for ending the HIV epidemic
- Applying the plan to the care continuum
- Disparities in viral suppression rates & paths to improvement
- Current health disparities with PrEP

Please join fellow healthcare professionals at this engaging event focused on people and communities impacted by HIV.

When: Thursday October 3rd arriving at 6:00pm starting at 6:30pm

Where: McEwen's Oxford: 1110 Van Buren Ave, Oxford, MS 38655

RSVP: Via text to 901-500-8798 or email: nate.s.boutte@viivhealthcare.com

Featured Presenter

Nate Boutte

PharmD

Nate joined ViiV in 2022 as a Medical Science Liaison, covering West Tennessee, Arkansas, Kentucky, Mississippi, and North Louisiana. In this role, he identifies and interacts with external experts to understand their insights on ViiV's HIV portfolio. He also serves as a medical expert for the ViiV portfolio and engages with healthcare providers on scientific topics of interest. In addition, Nate is a presenter at ViiV educational programs for healthcare professionals, attends advisory boards and scientific conferences, and supports ViiV in its clinical development activities. Nate Boutte brings to ViiV Healthcare over 15 years of experience in patient-centered pharmaceutical care as a specialty pharmacist. He holds extensive expertise in HIV, oncology, rare diseases, organ transplantation, hepatitis C, and Covid-19. He is highly adept at synthesizing clinical data and scientific evidence to enhance patient care strategies and is experienced in community and national media. Nate is passionate about patient advocacy, and his cherished value of ensuring family time motivates him to help patients do the same.
