

YOU ARE CORDIALLY INVITED TO ATTEND

# Glutamate: the neurotransmitter at the nexus of psychiatry

## Objectives:

- To review the role of glutamate in the physiology of normal brain function (learning, memory, cognition and mood)
- To review and discuss pathophysiological mechanisms that contribute to glutamatergic dysfunction, including stress and neuroinflammation.
- To review and discuss modulation of glutamatergic signaling, including potential impacts of NMDA receptor antagonism on neuroplasticity and synaptogenesis

## Presented by:

Daniel Breeyear, PMHNP-BC

## Title:

Director of Integrative Care

## Affiliation:

The Eden Center for Integrative Care

## Date:

Tuesday, June 9, 2026

## Time:

6:00 PM Central Time

## Location:

White Pillars  
1696 Beach Blvd  
Biloxi, MS 39531

or (770) 685-9847

Please note that there are no certified continuing medical education credits approved for this program. Axsome Therapeutics, Inc. is committed to the principles of the Pharmaceutical Research and Manufacturers of America (PhRMA) Code on interactions with Healthcare Professionals. As part of our commitment to that Code, we cannot pay for any costs incurred for travel or food of spouses or guests of any program participants, and any such spouses or guests may not attend any of the program's meetings or events. We appreciate your understanding in this regard.

Due to state regulations, prescribers licensed in Minnesota and healthcare professionals practicing in Vermont are not able to receive a meal at the dinner program. Meals may be reportable based on various state and federal laws. Guests are not permitted to attend any portion of the meeting or meals hosted by Axsome Therapeutics, Inc.
