

You are cordially invited...

...to join us for a fun and informative learning opportunity!

Dr. Wes Angel of Memphis Vascular Center will share his experience with revolutionary and non-surgical procedures for peripheral artery disease. Angioplasty and atherectomy are effective and clinically proven treatments that open blocked arteries therefore improving blood flow and allows patients to avoid amputation.

Wes Angel, M.D.

Dr. Angel joined Memphis Vascular Center in 2015. Dr. Angel received an undergraduate degree from Georgia Institute of Technology. He earned his medical degree from University of Tennessee Health Science Center and completed his residency in Diagnostic Radiology at University of Tennessee, Memphis. He completed his fellowship in Interventional Radiology at Emory. Currently, Dr. Angel serves as the Division Chief of Interventional Radiology at Methodist and President of the Tennessee Radiological Association.
